Homework #4 Business Dining Etiquette Website Submission Form

Your name:

Omar Quispe Avalos

Your website's URL:

A Seat at the Table
https://a-seat-at-the-table-opal.vercel.app/
Public website; no account or sign-in required.

Preferred browser (if any):

Current Microsoft Edge or Brave, with JavaScript enabled for the interactive activities. Both were tested. Written lessons remain readable without JavaScript.

Describe your internal and external links:

The Read / Explore / Practice / Reflect navigation connects six chapters with the table explorer, dinner simulator, and learning questions. Students can follow the complete sequence or revisit a specific skill; feedback links them to the relevant lesson. Resources connect the explanations to Carreño, the Emily Post Institute, TCU, Virginia Tech, Western Michigan University, and University of Arizona Career Development. Each of the six video lessons includes its publisher source and a direct YouTube alternative.

Describe your graphic element(s):

The original 3D dining room places 17 selectable objects in a restaurant setting. Selecting an object connects its appearance and position with an explanation of its use. A vector-rendered 3D alternative and a 2D map retain access when the main graphics mode is unavailable. Original chapter illustrations reinforce ideas such as napkin placement and bread on the left. The opening image depicts a fictional dining room and is disclosed as AI-generated; Resources includes design credits and font licenses.

Describe your advanced feature(s):

The table explorer combines object selection with guided camera views and practical explanations. In the dinner simulator, students make six decisions, compare three responses per situation, and receive consequences, reasoning, a final review, and an option to replay. The learning survey checks six knowledge answers and adds two confidence questions and two open reflections. Answers stay in page memory and are never sent to a server. Six embedded demonstrations load only when selected.

Public GitHub repository:

https://github.com/uainalaia/a-seat-at-the-table
Source code, assets, tests, documentation, and the release audit are available for review without signing in.

The following pages explain the learning sequence, reproduce the published questions, and identify the educational sources.

Project overview and review guide

Supplement A | A Seat at the Table | Omar Quispe Avalos

This individual, English-language project helps University of Arizona students prepare for a professional meal. Students first learn what to expect, locate their utensils in a dining-room scene, and rehearse decisions before reflecting on their understanding. The lessons frame etiquette as consideration for the people at the table, with room for cultural differences and individual needs.

Six educational chapters

01. Before you arrive - Arrive ready to focus on the people, rather than the logistics.

Open chapter

02. Taking your seat - Settle into a hosted meal with attention and consideration.

Open chapter

03. Reading the table - Navigate a common American place setting without memorizing every possible utensil.

Open chapter

04. Ordering with confidence - Make an appropriate order without compromising your needs.

Open chapter

05. Conversation & courtesy - Contribute to a welcoming professional conversation.

Open chapter

06. Closing the meal - Recognize the hosting arrangement and leave with appreciation.

Open chapter

Explore an expanded teaching setting

Open the interactive table. Select an object in the scene or its labeled control to connect its location with its purpose and a practical tip. Previous and next controls support a guided review. Keyboard operation and reduced-motion behavior offer alternative ways to explore.

Plate and linen: dinner plate, napkin.

Forks: salad fork, fish fork, dinner fork, dessert fork.

Knives and spreader: dinner knife, fish knife, butter spreader.

Spoons: soup spoon, dessert spoon, teaspoon.

Other service pieces: bread plate, water glass, red-wine glass, white-wine glass, cup and saucer.

The 17 elements compare several courses together. A real meal normally uses only the pieces required by its menu; dessert and coffee service may arrive later. Alcohol is optional.

Practice six professional decisions

Open the dinner simulator. A fictional recruiting dinner covers arrival, utensils, ordering with dietary needs, conversation, a spill, and the hosted bill. Each decision shows how a response affects the evening, explains the recommended approach, and links to a chapter. Students can use the final review to identify habits to practice and repeat the experience.

Reflect and consult the sources

Learning questions | Resources and video demonstrations
The next page reproduces all ten questions. Resources distinguish historical principles from contemporary guidance.

Published student learning questions

Supplement B | Questions reproduced from the website

Open the learning survey - The first six questions are checked on the page with explanations and related reading. The final four are optional and have no right or wrong answer. Responses are kept only in page memory; reloading or clearing removes them.

Check your understanding

01. At a salad-first meal with two forks, which fork do you use first?

A. The inner fork **B.** The outer fork **C.** Either fork from any setting

02. Where do you usually find your bread plate and water glass?

A. Bread left, water right **B.** Bread right, water left **C.** Both directly in front of the next guest

03. What should you do about an important dietary need?

A. Ignore it **B.** Discuss it loudly across the table **C.** Tell the host in advance and confirm discreetly with the server

04. What helps a professional dining conversation?

A. Talking through the whole meal **B.** Listening, asking questions, and including others **C.** Reading messages while someone answers

05. A used fork should rest where during the meal?

A. On the tablecloth **B.** In your pocket **C.** On your plate

06. The company has explicitly invited you as its guest. What is a good way to end the meal?

A. Respect the host's arrangements and say thank you **B.** Demand that the group split the check **C.** Leave without saying goodbye

Notice your confidence

07. After exploring this site, how confident do you feel finding your way around a place setting?

08. After practicing, how confident do you feel joining a professional dining conversation?

Response choices for questions 7 and 8: Not yet confident; A little confident; Fairly confident; Very confident.

Choose your next step

09. What is one thing you learned that you will use at your next professional meal?

Open response.

10. What dining situation would you still like to learn more about?

Open response.

Instructor reference

Knowledge answer key: 1: B, 2: A, 3: C, 4: B, 5: C, 6: A. The website explains the recommendation after all six knowledge questions are answered. Confidence and reflection responses are not scored.

Educational sources and project notes

Supplement C | Sources linked from the website

Primary historical foundation

Manuel Antonio Carreño. *Compendio del manual de urbanidad y buenas maneras*, in *Nociones de urbanidad y buenas maneras*. Biblioteca Nacional de Colombia / Ministerio de Cultura, 2016. ISBN 978-958-8959-32-0. Read the digitized edition.

Carreño supplies the historical foundation for consideration, attentive conversation, and respectful table conduct. Relevant passages include Urbanidad, chapter V, article III, section I, paragraphs III-V (seating and napkin), X-XV (utensils, bread, and drinks), and XXXII (staff); article I, paragraphs II, V, XXV, and XXXIV-XXXV (conversation and courtesy). Section locators avoid differences between editions. The site contextualizes historical social prescriptions and uses contemporary sources for dietary needs, modern place settings, and recruiting conventions.

Six cited video demonstrations

1. **Where does the napkin go?** - The Emily Post Institute. Publisher and context | Watch on YouTube.
2. **Bread left. Drinks right.** - The Emily Post Institute. Publisher and context | Watch on YouTube.
3. **Start with the outside utensils.** - The Emily Post Institute. Publisher and context | Watch on YouTube.
4. **Find your seat.** - The Emily Post Institute. Publisher and context | Watch on YouTube.
5. **A comfortable grip.** - The Emily Post Institute. Publisher and context | Watch on YouTube.
6. **Build the place setting.** - The Emily Post Institute. Publisher and context | Watch on YouTube.

The family-table demonstration teaches basic placement; the site identifies its domestic context. It is not presented as a complete formal professional setting. Written chapters cover the relevant skills when embedded playback is blocked.

Presentation and verification

The site uses an ivory, burgundy, and charcoal editorial system, locally hosted Cormorant Garamond and Source Sans 3, original scene geometry and SVG diagrams, and brief animations that respect reduced-motion preferences. The fictional AI-generated opening image and font licenses are identified in Resources and credits.

The November 9 release audit records 41 local checks passed, 13 public routes checked without sign-in, and production activity tests in Edge and Brave. Checks covered the learning activities, responsive layouts, keyboard use, and video startup. Broader browser, device, screen-reader, and caption review remains manual. The release audit documents the evidence and its limits.

On November 11, 2026, the website responded successfully and GitHub confirmed public repository visibility. Both submission links are public. The repository contains source, assets, tests, and documentation; the live website is hosted separately on Vercel.
